Jan 28, 2026

MD AZAD HOSSAIN TUTUL

has successfully completed the online Specialization

Developing Mobile Apps with Flutter

After completing this specialization, you'll have job-ready skills in Google's open-source Flutter framework and Dart programming that are ideal for entry-level mobile application development roles. You'll have the skills needed to use Flutter widgets and plugins, manage states, implement APIs, and create apps that include data persistence. You'll be able to use Dart programming and its libraries and explore command-line apps. You'll gain experience with Figma and build apps with intuitive interfaces and local storage, You'll know how to integrate notifications, manage state, use databases, and use APIs. Plus, you'll have end-to-end experience of publishing your own app, backed by an understanding of marketing strategies.
